

# Greater Lowell Technical High School

## Technical Program Service Catalog

# Mission

*Greater Lowell Technical High School commits to ensure students' readiness for career, college, and citizenship in the 21st century. We challenge and support students as they realize their individual potential for personal and professional success.*

# Philosophy

*Greater Lowell Technical High School believes in the philosophy and goals of the Massachusetts Common Core of Learning, the Massachusetts Curriculum Frameworks, and the Massachusetts Vocational Technical Education Frameworks to ensure that students attain the academic and technical skills required to secure employment, to continue post-secondary studies, or to pursue a combination of both.*

*Greater Lowell Technical High School provides students with distinct technical and academic experiences in a supportive and safe environment to realize a focus for their future.*

*Greater Lowell Technical High School actively strengthens community and business partnerships with service programs, career and employment opportunities, mentoring programs, advisory boards, grant partnerships, field placements, and volunteerism.*

*Greater Lowell Technical High School's faculty commits to the highest quality of instruction in both technical and academic areas and the design of extra and co-curricular activities that positively influence students' intellectual, physical, social, and emotional development, to develop leadership, teamwork, and problem solving.*

*Greater Lowell Technical High School promotes and enhances the learning process by providing academic, technical, and personal/social counseling to facilitate positive student development.*

*Greater Lowell Technical High School believes that all students regardless of race, color, national origin, sex, disability, religion, or sexual orientation have the opportunity to succeed through technical and academic programs and extracurricular activities.*

# Program Service Policy

One of the highest priorities for all technical programs at Greater Lowell Technical High School is to maximize authentic learning opportunities for our students, which include providing services and producing products for customers.

“Live” customer and community service projects are an important component of the curriculum for many programs. The following guidelines have been established to ensure that we maximize the learning experience for our students, while making certain that all individuals eligible to receive services and purchase products are treated fairly and equally in compliance with the Commonwealth of Massachusetts Ethics Law.

- Requests for projects will be accepted from staff, residents, and non-profit organizations within the district and district member municipalities.
- All customer and community projects must enhance the teaching of the Vocational Technical Education Frameworks.
- Projects will be evaluated by instructional staff to determine educational value and scheduling availability.
- All projects will be approved by the cluster chair of the department.
- Customers will pay for parts, materials and sales tax as required, as well as a 20% surcharge to cover indirect costs associated with performing the work. Services that do not require the purchase of parts and materials for service are posted in the shop and on our web site.
- The 20% surcharge will be waived for non-profit organizations and member municipalities.
- Projects over \$50 will be paid for with major credit cards or bank checks; a Lowell Five Bank branch is on campus.
- Some projects may require payment in advance to order parts and materials.
- All charges will be paid in full prior to any vehicle, project or goods being delivered.
- Pick-up, delivery and set up of goods is solely the responsibility of the customer. Exceptions in writing may be made by the Superintendent based on educational value.
- Charitable donations and community service work will be at the discretion of the Superintendent-Director with the approval of the School Committee Chair.
- Seniors over the age of 65 will receive an 8% discount of the surcharge total.
